## **BOARD OF CRIME CONTROL MEMBERS**

---

LARRY ELISON, S.J.D.  
School of Law, University of Montana  
Missoula, Montana  
(*Chairman*)

DONALD E. BJERTNESS  
Police Judge  
Billings, Montana

CHARLES M. JOSLYN  
County Attorney, Teton County  
Choteau, Montana

HON. BILL CHRISTIANSEN  
Lieutenant Governor - Elect  
Hardin, Montana

COLONEL ROBERT McKAY  
Chief, Montana Highway Patrol  
Helena, Montana

GERALD DUNBAR  
Chief of Police  
Billings, Montana

DAVID MIDDLEMAS  
Sheriff, Lewis & Clark County  
Helena, Montana

ROGER W. CRIST  
Warden, Montana State Prison  
Deer Lodge, Montana

CLIFFORD L. PASHA  
County Commissioner, Gallatin County  
Bozeman, Montana

RALPH FISHER  
Supervisor, Montana Parole Board  
Missoula, Montana

JOHN PFAFF, JR., M.D.  
Pathologist, Department of Pathology  
Great Falls, Montana

HON. FRANK HAZELBAKER  
State Senator  
Dillon, Montana

HON. JAMES SORTE  
District Judge, Roosevelt County  
Wolf Point, Montana

LAWRENCE D. HUSS  
Deputy Attorney General  
Helena, Montana

JOHN THOMAS  
Director, Division of Aftercare  
Helena, Montana

---

BRINTON B. MARKLE  
*Executive Director*

MICHAEL A. LAVIN  
*Deputy Director*

## Introduction

---

*“Congress finds that the high incidence of crime in the United States threatens the peace, security and general welfare of the nation and its citizens. To prevent crime and to insure the greater safety of its people . . .”\**

Congress in 1968, enacted the Omnibus Crime Control and Safe Streets Act which created the Law Enforcement Assistance Administration (LEAA) within the Department of Justice to administer federal funds to improve law enforcement at every level.

Congress recognized that the problems of crime could not be effectively solved at the Federal level and clearly stated as the purpose of the Omnibus Act that:

*“ . . . crime is essentially a local problem that must be dealt with by State and local governments if it is to be controlled effectively.”*

*“It is therefore the declared policy of the Congress to assist State and local governments in strengthening and improving law enforcement at every level by national assistance . . .”*

With this statement of purpose Congress placed the Federal government in the background of a war on crime while requiring state governments to examine the problems of their justice systems and to design effective programs to improve that system and, subsequently, to reduce crime.

---

\*The Omnibus Crime Control and Safe Streets Act, 1968.

## **Montana's Action**

The Montana Law Enforcement Planning Agency was created by Executive Order in August, 1968 and assigned the duties of planning and administering federal funds in accordance with the Omnibus Act.

Brinton B. Markle was appointed Executive Director of the new agency under the supervision of a five-member Commission. With a federal grant of \$100,000, the task of planning and selling the idea of locally-controlled federal assistance to skeptical lawmen was begun.

In the past four years, the program has not only been accepted by Montana lawmen, but also has become a primary resource for special assistance to Montana law enforcement agencies, courts and correctional institutions.

In 1973, the Montana Board of Crime Control, as the agency is now known, will be responsible for channeling more than two and a half million federal dollars into improvement of Montana's criminal justice system.

## **Board Representation**

University of Montana Law Professor, Dr. Larry Elison, chairs a sixteen-member Board representative of all phases of the criminal justice system, local government and the general public. The Board membership also is geographically representative of the State.

The Board meets monthly in Helena to consider applications for federal funds submitted by State agencies and local government and to determine the policy and direction of future administration of funds.

## **The State Planning Agency**

A professional staff under the direction of Executive Director Brinton B. Markle carries out the policies set by the Board on a day-to-day basis.

The staff works with applicants in planning new projects, provides technical assistance in implementing projects and evaluates the effectiveness of completed projects. The staff acts as liaison among the public, law enforcement agencies and the Board.

## Regional Advisory Councils

To insure local participation in the total planning and improvement effort, the Board has established five Regional Advisory Councils. These Councils meet monthly with criminal justice system personnel in their respective localities and advise the State Board of local needs and projects.

The Advisory Councils also assist in the administration of federal funds for the purchase of equipment by law enforcement agencies in their respective regions.

### Region I — Advisory Council Members

E. C. "DUKE" WILLEY  
Region I Field Coordinator  
Missoula, Montana

CALVIN T. CHRISTIAN (Chairman)  
Attorney at Law  
Polson, Montana

F. J. HOULE, JR.  
Tribal Secretary, Confederated Tribes  
Dixon, Montana

JAMES MOREY  
County Commissioner  
Lincoln County

JOHN MOE  
Sheriff, Missoula County  
Missoula, Montana

AL MEYERS  
County Commissioner, Lake County  
Polson, Montana

DR. BRUCE JOHNSON  
Flathead Community College  
Kalispell, Montana

JERRY JOHNSON  
Chief Probation Officer  
Missoula, Montana

DALE DYE  
Sheriff, Ravalli County  
Hamilton, Montana

HON. E. GARDNER BROWNLEE  
District Judge  
Missoula County

HON. GEORGE F. TURMAN  
Mayor  
Missoula, Montana

TED WAGGENER  
Chief of Police  
Kalispell, Montana

GORDON BROWDER, Ph.D.  
Professor of Sociology, University of Montana  
Missoula, Montana

CURT SNYDER  
Sheriff, Flathead County  
Kalispell, Montana

JAMES BLODGETT  
Deputy Warden, Montana State Prison  
Deer Lodge, Montana

### Region II — Advisory Council Members

**JACK LODELL (Chairman)**  
Chief Probation Officer  
Anaconda, Montana

**DONALD ANDERSON**  
District Parole & Probation Supervisor  
Butte, Montana

**JACK WILLIAMS**  
Chief of Police  
Helena, Montana

**GUY HULSE**  
Citizen Representative  
Virginia City, Montana

**EDDIE BARBEAU**  
Indian Representative  
Helena, Montana

**BRIAN TINNERY**  
Deputy County Attorney,  
Silver Bow County  
Butte, Montana

**KENNETH CUNNINGHAM**  
Silver Bow County  
Butte, Montana

Sheriff, Chouteau County  
Fort Benton, Montana

ED SHUBAT  
County Commissioner, Cascade County  
Great Falls, Montana

MICHAEL MURPHY  
Chief of Police  
Harlem, Montana

C. F. DOOLEY  
Chief Probation Officer  
Cut Bank, Montana

#### **Region IV — Advisory Council Members**

ED KILZER  
Field Coordinator for Regions IV & V  
Billings, Montana

DOUG FREEMAN (Chairman)  
County Attorney, Big Horn County  
Hardin, Montana

ELWIN C. NESS  
Probation Officer  
Billings, Montana

EUGENE KORBER  
Adult Parole Officer  
Billings, Montana

KEN THOMPSON  
Sheriff, Sweet Grass County  
Big Timber, Montana

JAMES EICHLER  
Sheriff, Carbon County  
Red Lodge, Montana

LOUIS RIDES HORSE  
Indian Representative  
Crow Agency, Montana

PATRICK H. McGUIRE  
School Principal  
Lewistown, Montana

A. C. ANDERSON  
City Alderman  
Columbus, Montana

HON. CHARLES LUEDKE  
District Court Judge, Yellowstone County  
Billings, Montana

KENNETH BOE  
Assistant, Chief of Police  
Livingston, Montana

ROBERT GLENNEN  
State Representative  
Billings, Montana

GEORGE CUNNINGHAM  
Citizen Representative  
Hardin, Montana

JOHN NELSON  
County Commissioner, Wheatland County  
Harlowton, Montana

### **Region V — Advisory Council Members**

DON HOLLADAY (Chairman)  
Superintendent, Pine Hills School  
Miles City, Montana

GRANT GATLIN  
Sheriff, Powder River County  
Broadus, Montana

HAROLD MERCER  
Citizen Representative  
Sidney, Montana

HOWARD CORNWELL  
County Commissioner, Valley County  
Hinsdale, Montana

GARY OLSON  
Dawson College  
Glendive, Montana

LEO CODY  
Sheriff, Roosevelt County  
Wolf Point, Montana

WAYNE HEADSWIFT  
Indian Representative  
Lame Deer, Montana

HON. ALFRED B. COATE  
District Judge, Rosebud County  
Forsyth, Montana

DON KETTNER  
Citizen Representative  
Glendive, Montana

BOB BROOKS  
County Attorney, Powder River County  
Broadus, Montana

BRUCE HARRIS  
Citizen Representative  
Sidney, Montana

MARVIN JOHNSON  
Police Representative  
Sidney, Montana

GERALD FEDA  
Citizen Representative  
Glasgow, Montana

EDWARD SCHMITZ  
Chief of Police  
Glendive, Montana

Adult Parole Officer  
Glendive, Montana

IRVIN ZEITNER  
Juvenile Probation Officer  
Miles City, Montana

FRANCIS McCARVEL  
Attorney at Law  
Glendive, Montana

CALVIN RED THUNDER  
Indian Representative  
Brockton, Montana

“It is the purpose of the Montana  
Board of Crime Control to  
reduce crime in Montana by  
improving Montana’s criminal  
and juvenile justice systems.”

Goal Statement  
September, 1972

## Planning For Change

---

As limited federal funds are available, it is the responsibility of the Board of Crime Control to identify the priority problems of the State's criminal justice system and to channel available money into projects which have the greatest prospect for improving that system, and subsequently, reducing crime.

This task is accomplished through the planning cycle and recorded in an annually published Comprehensive State Plan for Criminal Justice System Improvement.

Through evaluation of completed and current projects and data obtained from local government and the Regional Advisory Councils, the State Planning Agency staff identifies resources and problem areas and makes recommendations for improvement of the criminal justice system. This information is compiled into a Comprehensive Plan which serves as a basis for appropriating federal funds in an intelligent manner.

## Components Of The Plan

The Board has identified seven broad program areas of needed improvement under which specific projects may be funded. These areas are:

- |                                  |  |
|----------------------------------|--|
| <b>Facilities:</b>               | Projects which will improve existing facilities or provide new quarters for the operation of police, courts and corrections. |
| <b>Manpower:</b>                 | Projects to provide additional or alternate manpower to increase the effectiveness of the criminal justice system.           |
| <b>Education &amp; Training:</b> | Projects to raise the level of professionalism of criminal justice practitioners.  |
| <b>Communications:</b>           | Projects to improve the Montana law enforcement communications network to meet modern needs.                                 |

<b>Equipment:</b>	Assistance in purchasing large or extraordinary equipment necessary for good law enforcement but not allowed in the local budget.
<b>Research, Development &amp; Technology:</b>	Projects designed to introduce or develop new applications of technology to increase the efficiency of Montana's criminal justice system.
<b>Special Impact Programs:</b>	Projects with an innovative approach to reaching a certain goal. Special Impact Programs may combine several projects in the different program areas towards filling a special need.

## **A Cooperative Effort**

While the Board assumes responsibility for planning and administration of federal funds, it is the duty of local government and State agencies to apply for funds and to carry on specific projects within the framework of the State Plan. The Montana Board of Crime Control channels federal funds to local government through the subgrant procedure.

The staff of the State Planning Agency is available to assist potential applicants in planning an improvement project and applying for federal funds.

The completed subgrant application is first submitted to the appropriate Regional Advisory Council for preliminary evaluation. Based on the potential of the project to improve the criminal justice system, its priority, as established by the Board through the state plan and its probability of success, the Advisory Council recommends an award or rejection and forwards the application to the State Planning Agency for further consideration.

The staff reviews the application and presents it to the Board at its next monthly meeting. A right of appeal is granted at each level if the application is rejected.

**Total Awards To Montana Board Of Crime Control  
To June 30, 1972  
And Projected 1973 Budget**

AWARDS	1969	1970	1971	1972	1973
FEDERAL	247,115.00	960,739.00	2,588,980.00	2,248,810.00	2,575,000.00
STATE	-0-	7,400.75	3,799.25	70,000.00	195,000.00
TOTAL	247,115.00	968,139.75	2,592,779.25	2,318,810.00	2,770,000.00

Total Budget: \$8,896,844.00

## **Federal Funds Available**

---

The Montana Board of Crime Control, under provisions of the Omnibus Act, receives federal funds for planning and for funding local projects. The amount of these awards is based on the population of the State.

### **Planning Grant**

A federal *planning grant* is awarded to Montana to carry on the activities of the State Board and the State Planning Agency. In the past four years, the amount of this award has nearly doubled due to the increased emphasis placed on the program by Congress.

### **Action Grant**

Upon approval of the Montana Comprehensive Plan the Law Enforcement Assistance Administration awards *action funds* to implement the projects described in that plan. The action award to Montana has increased from \$147,000 in 1969 to \$1,534,000 in 1972.

### **Correction Funds**

In 1971 and 1972 additional federal funds were awarded to Montana for improvement of the State's correctional system. These "*Part E*" or correction awards totalled \$464,000.

### **Discretionary Awards**

Projects of national significance not included in the State Plan are funded through Federal *discretionary awards*. The Montana Board of Crime Control has administered \$1,053,504 in discretionary awards in the past four years.

### **Buy-In Provisions**

Under provisions of the Omnibus Act, state governments must demonstrate an interest in the crime prevention program by providing a 25 per cent match to federal awards. Services, salaries and other "soft matches" have been allowed.

However, in July, 1972, Congress amended the Omnibus Act to require a portion of cash match for federal funds. While 15 per cent soft match is still allowed, approximately \$.10 in cash is required from state and local governments to bring \$.75 in federal funds into Montana for criminal justice system improvements.

Typical \$100.00 Local Project

## **Summary**

---

The Montana Board of Crime Control has as its primary goal improving Montana's adult and juvenile justice system to deal more effectively with the problem of crime.

Through Federal and State legislation, the Board has been charged with the responsibility of collecting and analyzing data concerning crime and the Montana criminal justice system; with developing a plan for improvement, and with funding and evaluating improvement programs.

Since its creation in 1968, the Montana Board of Crime Control has channeled more than six million federal dollars into Montana's criminal justice system. The following sections present a brief review of the work of the Board and some of its major achievements.

**Education**

**and**

**Training**

Montana lawmen, Justices of the Peace, County Attorneys and Corrections Officers have indicated to the Board a need and desire for specialized professional training.

The Board, recognizing that continuing education is essential to effective law enforcement, set and has maintained education and training as a top priority program.

## The Montana Law Enforcement Academy

Centrally located on the campus of Montana State University in Bozeman, the Law Enforcement Academy is the center of learning for all lawmen in Montana. In the past four years the Academy has received more than \$406,000 in Federal funds from the Board of Crime Control. Through this assistance the Academy has been able to hire a full-time administrative staff and to expand its curriculum to a 38-week academic year offering specialized training to all personnel of the criminal justice system.

For lawmen the Academy offers four four-week Basic Training Schools for recruits and two two-week Advanced Training sessions for police veterans as well as specialized police science courses such as Narcotics Investigation, Traffic Accident Investigation and Violent Death Investigation.

The needs of various groups are met by highly specialized courses directed at specific areas of knowledge such as the training sessions for Justices of the Peace, Volunteers to Court and the Gross Vehicle Weight training for the Montana Highway Department.

In the past four years the Academy has received more than \$406,000 in Federal funds from the Board of Crime Control. Through this assistance the Academy has been able to hire a full-time administrative staff and to expand its curriculum to a 38-week academic year offering specialized training to all personnel of the criminal justice system.

For lawmen the Academy offers four four-week Basic Training Schools for recruits and two two-week Advanced Training sessions for police veterans as well as specialized police science courses such as Narcotics Investigation, Traffic Accident Investigation and Violent Death Investigation.

The needs of various groups are met by highly specialized courses directed at specific areas of knowledge such as the training sessions for Justices of the Peace, Volunteers to Court and the Gross Vehicle Weight training for the Montana Highway Department.

Instructors at the Academy include Montana lawmen, professors of the University system, FBI agents and out-of-state lecturers.

## Facilities

Offices of administration for the Academy occupy one floor of a converted dormitory at the University and classrooms and lodging for approximately 35 students are available.

A lighted firing range with electronic moving targets is available for weapons practice. The moving targets require the student to decide whether or not to draw and fire — which prepares the student for the quick decisions under stress and accuracy of thought and movement that will be required of him throughout his law enforcement career.

A film and video tape library containing drug abuse, community awareness and police training films is maintained by the Academy. Video tapes are being made of classes taught at the center and will be available for field training.

#### Law Enforcement Education Program

Orbit into a dynamic career in criminal justice involvement. Yes, involvement... rewarding work... a chance to help people. That's what you'll find in criminal justice. If you specialize in police, courts, or corrections, LEEP loans will help finance your college study. You may qualify for a loan-up to \$1,800 a year. It will be cancelled at the rate of 25 percent for each year you spend in your profession. For the details, see your college's Financial Aid Office or write to:

Law Enforcement Education Program  
Law Enforcement Education Program  
U. S. Department of Justice  
Washington, D. C. 20535

## L.E.E.P.

The Montana Board of Crime Control has assisted seven Montana colleges in establishing and maintaining criminal justice studies programs leading to two or four year degrees.

Through the Law Enforcement Education Program (L.E.E.P.), students of an accredited criminal justice program may borrow from the Federal government to complete their education.

All or a portion of the loan is cancelled if the graduate is employed by a Montana law enforcement agency for a period of one to four years after college.

## Intern Program

Law and criminal justice studies students gain first hand knowledge of the criminal justice system through the intern program funded by the Board of Crime Control.

Twenty law students are placed with County Attorneys to assist in public prosecution while gaining practical experience. Approximately 18 students from the LEEP program are placed in law enforcement agencies.

The students gain insight into the daily routine of law enforcement and earn a small stipend while providing the agency with additional manpower.

### **In-Service Training**

Through financial assistance from the Board of Crime Control, the Montana State Prison at Deer Lodge initiated an in-service training program offering 30 hours of college level instruction to all correctional personnel. Selected courses in the Behavioral Sciences are taught by instructors from the University of Montana.

The prison also offers in-service orientation and other courses as varied as self-defense, first aid and human motivation to all personnel.

## **Regional Lower Court Training**

District Judge E. Gardner Brownlee, through financial assistance of the Board of Crime Control wrote and published a 128-page manual for Justices of the Peace, and developed a basic course of instruction for lower court personnel.

In addition to teaching four-day sessions for Justices of the Peace at the Montana Law Enforcement Academy, Judge Brownlee has conducted two-day sessions for lower court personnel in the Northwest Region (Region 1). One session, in Polson in 1971, attracted 54 participants.

Each student is provided with a manual and instructed in all phases of lower court activity. Discussion of specific problems is an important part of the training sessions.

## Facilities

## **Montana Jail Survey**

Congress, in 1971, amended the Omnibus Act to make additional funds available to the States for improvement of correctional facilities and treatment.

To channel these limited funds into the area of greatest need, the Montana Board of Crime Control directed the State Planning Agency staff to prepare a study of local correctional facilities in Montana.

The planning staff conducted an on-site inspection of 54 county and 21 municipal jails. In December 1971, the Jail Survey was published.

The report, which rated each jail on physical condition, security measures, operation, cost of operation and rehabilitative programs available to prisoners, was the first study of its kind in the state.

The survey showed that most Montana jails were built before 1920 and are in fair to poor physical condition. Few have adequate facilities to separate juveniles and females from male adults. In most jails, no rehabilitative programs are available to prisoners.

Montana's community jails generally do not have adequate security provisions and operation is hampered by insufficient personnel. In some instances, the sheriff's wife assists with the feeding and handling of prisoners.

The Jail Survey recommended that priority be given to projects which would bring those jails with the largest inmate population up to acceptable conditions for security, safety and sanitation; that rehabilitative programs be instituted for long-term prisoners and that consolidation of services in modern regional detention centers be given highest priority.

# **STATE OF MONTANA JAIL SURVEY**

**Governor's Crime Control Commission  
December, 1972**

## Jail Renovation

Several county and city jails in Montana are in need of immediate repair to provide proper surroundings for the detention of offenders. The Montana Board of Crime Control has provided assistance to more than 20 counties and cities to rejuvenate antiquated but structurally sound jails.

Sheridan, Cascade and Lewis and Clark counties are among those who have received assistance. Sheridan County which uses a part of the county courthouse as jail facilities is adding an annex to the Courthouse which will provide consolidated facilities for the Plentywood City Police and the Sheridan County Sheriff.

The new addition will have space to house female and juvenile prisoners from neighboring Daniels County and Federal prisoners if necessary.

The Lewis and Clark County jail, built in 1891, received a grant to replace the original plumbing in the prisoner's area.

Cascade County is remodeling the juvenile facilities of its jail to provide an increased area for study and rehabilitative programs.

Missoula County has completed a major renovation of its facilities to provide a sanitary, safe and secure environment for the detention of prisoners.

## Group Homes

In cooperation with the Division of Aftercare of the Department of Institutions, the Board of Crime Control has funded five group homes as an alternative to institutionalizing juveniles who, for various reasons, cannot live in their parents' homes.

Located in Shelby, Great Falls, Missoula, Polson and Billings, the homes offer adult supervision and a family atmosphere to juveniles who have become wards of the courts.

Each home can accommodate from one to ten children between the ages of five to sixteen. Children may stay overnight or several years depending on the circumstances of the individual child.

## **Criminal Evidence Laboratory**

Sophisticated analysis equipment, purchased through the assistance of the Board of Crime Control, has increased the potential of the State Criminal Evidence Laboratory to provide a complete chemical breakdown of drug, blood, breath and all types of gas samples. The analysis service is of great importance to lawmen in the investigation of crime-scene evidence. The laboratory, located in Missoula, completed analysis of more than 600 samples during the first nine months of 1972.

## Way-Let

The Way-Let House in Helena provides temporary shelter and assistance to men released from Montana State Prison who must readjust to society outside the institution.

Help in finding employment, continuing education and readjusting to the greater community is provided along with the immediate needs-food and shelter.

## **Drug and Alcohol Counseling**

Four counseling programs for alcoholics and two drug treatment centers have been established through Board of Crime Control funding.

The four half-way houses located in Billings, Miles City, Great Falls and Kalispell offer shelter and counseling to persons fighting an alcohol dependence problem.

Drug treatment and counseling programs in Billings and Great Falls offer assistance and rehabilitation to chronic drug users.

The Board of Crime Control has provided funds to the Alcohol and Drug Dependence Commission to fund prevention and treatment projects at that Commission's discretion.

## Montana Police Service Dog Academy

A complete training facility for dogs and handlers was officially opened in August, 1972. The Canine Academy, located east of Great Falls on Belt Creek, was built through cooperation of Cascade County Sheriff John Krsul's Office and the Board of Crime Control.

Deputy Sheriffs Les Bobier and Keith Wolverton who are in charge of the facility, assisted in clearing the land and constructing the one-story redwood building.

The Academy has full facilities to house and train twelve dogs and their handlers for a 14-week course.

The dogs are trained in narcotic and bomb detection, guard duty, tracking of persons, searching for lost articles and crowd control.

Early graduates of the training course assisted in locating bodies following the flood in Rapid City, South Dakota in June, 1972.

The Academy will train dogs and handlers from all law enforcement agencies in the State and from other states in the region. Graduates are assisting in search and rescue assignments and law enforcement patrols in many areas of the state.

## The Bureau of Criminal Statistics

A reliable data base of information about crime and the criminal justice system is necessary to intelligent planning. The Bureau of Criminal Statistics is responsible for collecting this data and analyzing the incidence of crime in Montana.

The Bureau collects information on arrests from every law enforcement agency in the state through the monthly arrest register. From the collected data, the Bureau prepares quarterly reports giving the date, time, place and cause for arrest as well as information about the offender.

Currently, the Bureau is developing a data system to collect and analyze information concerning offenses known to the police.

## **Regional Drug Investigation Team**

Under the supervision of Missoula County Sheriff John Moe, an investigative team was formed to fight drug traffic in the Northwestern Region (Region 1) of the State.

The Sheriff's team is thoroughly trained in drug identification and investigation and in one year brought about more than 54 arrests and 12 convictions while causing the confiscation of illegal drugs with a street value of more than \$2.5 million.

The team cooperates with Federal and local officers in identifying patterns of drug traffic and has been instrumental in the arrest of national drug traffic operations.

Another drug team is working in Gallatin County.

## Multi-County Investigative Team

Law enforcement agencies in the nine counties affected by the ABM related population surge are forming an investigative team to assist in the investigation of major crimes. Twenty officers from agencies throughout the nine counties will be trained as specialists in crime scene evidence. The team will be available to assist any law enforcement agency in the area with the investigation of a major crime.

### **Governor's Juvenile Justice Advisory Council**

Governor Forrest H. Anderson has formed an Advisory Council to review Montana law pertaining to juveniles and to recommend changes which will bring those laws into compliance with recent decisions handed down by the United States Supreme Court. Chairman of the Council is Associate Justice Frank Haswell of the Montana Supreme Court.

The Board of Crime Control is providing financial support for the Council. Terry Wallace and Stephen Nelsen of the State Planning Agency are assisting the Council in drafting a revised code.

## Communications

## Radio Communication

A coordinated law enforcement radio communication system is essential to Montana lawmen. Officers patrolling the State's vast rural areas or cooperating in a coordinated search must have constant communication with headquarters and other patrolmen to be effective.

The Board of Crime Control has assisted in developing this network.

## ERL

The staff of the Montana State University Electronic Research Laboratory (ERL) working with a task force from the Board, establishes specifications for the radio network and guides the Board and law enforcement agencies in the purchase and use of radio communication equipment.

Through the joint effort of the Board of Crime Control and the ERL staff, a statewide law enforcement radio network is evolving which will provide adequate communication in cases of disaster or emergency as well as in the activities of day-to-day law enforcement.

## MLETS

The Montana Law Enforcement Teletype System (MLETS) is the backbone of communication among law enforcement agencies in the state.

Messages from the 41 agencies using the service are transmitted through a central switching office in Helena to other State agencies, out-of-state agencies and to the National Crime Information Center (NCIC) in Washington, D.C.

Montana lawmen have made more than 600 "hits" — locations of fugitives or stolen goods — since the system began operation in 1969.

MLETS was designed by Systems Science Development Corporation through funding of the Board of Crime Control. It replaced a party-line teletype system among major law enforcement agencies.

The teletype system allows all user agencies to send and receive hard copy messages which improves the recording and retrieval system of the individual agency.

Continued expansion of the MLETS will bring all law enforcement agencies on-line and includes the purchase of automatic equipment to record and resend messages to busy agencies when lines are cleared.

**Manpower**

In many areas of Montana, law enforcement and the justice system suffer from insufficient manpower. Often a small population distributed over a vast area means long patrol tours for peace officers and frequent long drives for probation and parole officers, prosecutors and judges.

The Montana Board of Crime Control has initiated several programs to bring additional manpower into the criminal justice system.

## P.O.S.T.

The Peace Officers Standards and Training Council, which will set minimum standards for the recruitment, training and employment of Montana lawmen and the curriculum standards of police training schools, was formed in August, 1972 as an advisory council to the Board. Clayton Bain, former Great Falls Police Chief will coordinate the activities of the Council for the Board.

The formation of POST was the culmination of three years of research by a special task force which studied the needs and existing practices of Montana lawmen.

### **Pre-Parole Indian Counselor**

Because Indians leaving Montana state prison face special difficulties in readjusting to the society outside of prison, a counselor, himself an Indian, was hired by the prison through funding of the Board of Crime Control.

By counseling the offender before he is released, the officer assists the prisoner to anticipate problems of readjustment and to find acceptable solutions to those problems.

### **Medical Assistance**

Insufficient manpower caused the Montana State Prison infirmary to fall below the operating standards of the Montana Board of Health in 1971.

The Board of Crime Control funded the employment of a male nurse and a medical technician (LPN) to provide adequate 24-hour medical care to inmates and to bring the infirmary up to minimum standards.

## **Adult Probation and Parole**

Through funding of the Montana Board of Crime Control, the Board of Pardons has employed two female officers.

The two women located in Billings and Helena, have a full caseload of clients and augment the Board's ability to give individual attention to each probationer or parolee.

## **Juvenile Probation Assistance**

Five full-time and two part-time juvenile probation officers have been hired through assistance of the Board of Crime Control to assist in the guidance of juvenile offenders in those judicial districts with large loads of juvenile cases needing additional manpower assistance.

## **Butte Crisis Intervention Center**

The Butte Crisis Center, established through funding of the Board of Crime Control in cooperation with Butte Model Cities Program, provides anonymous assistance to anyone in a crisis situation.

Trained volunteers man two telephone lines on a 24-hour a day basis. Calls are received from Anaconda, Bozeman, Dillon, Helena and other communities in the region.

The Crisis Center volunteers received 2,499 calls from the time the lines were opened in October, 1970 through February 1972. Most of these calls dealt with alcohol, drug or emotional crises.

All calls are confidential. If the caller should request counseling or assistance a back-up staff of professional counselors and psychologists is available 24 hours a day.

## **Volunteer Programs**

The Board of Crime Control has supported the establishment of Big Brothers and Sisters of Helena, a volunteer group which provides an individual counselor for each child referred; the Montana Organization for Volunteer Effort (MOVE) which assists communities in organizing volunteer programs for work with court referred juveniles; and has sponsored training sessions and organizational meetings for other volunteer groups.

**Equipment**

While routine equipment purchases and maintenance are the duty of local criminal justice agencies, the Board of Crime Control does finance the purchase of special equipment not allowed within the confines of the local budget.

Equipment purchased with federal funds varies from dictaphones for the use of the Montana Supreme Court to a metal detector for added security at Montana State prison.

The Regional Councils have assisted in the purchase of patrol, communication, surveillance and jail equipment and have made possible the purchase of sophisticated investigative equipment such as polygraphs and video tape cameras.

**Special**

**Impact**

**Programs**

The planning and evaluation of criminal justice system improvements combined with research leads to the introduction of innovative techniques of reducing crime in Montana.

The Board of Crime Control assists in planning and funding special programs and offers technical guidance to agencies undertaking such projects.

Special Impact Programs encompass many areas and projects and are directed towards accomplishing a specific goal or meeting an emergency need.

### Helena Anti-Burglary Program

The Helena Police Department has undertaken a multi-phase project to reduce the crime of burglary in Helena by 50 per cent in the next two years.

Projects to accomplish this goal include; accurate record-keeping; improving the security of Helena businesses through security checks and the installation of an alarm receiver with hook-ups to each business; a campaign to alert homeowners to residential security precautions and the design of more efficient patrol procedures. A study of offenders to determine effective rehabilitative programs also is planned.

**S.C.I.P.**

The Great Falls Police Department has completed a public awareness program aimed at better understanding between the public and the police in that city.

Through funding of the Board of Crime Control, the Police Department surveyed citizen's attitudes towards and understanding of the local police and started a multi-media campaign to increase awareness of police activities. Successful projects launched through SCIP such as school appearances and radio shows are being continued by the police department as a part of normal operations.

### **Billings Law Enforcement Improvement Project**

The Billings Police Department under the direction of Chief Gerald T. Dunbar and with a discretionary award from the Law Enforcement Assistance Administration (LEAA) undertook an eighteen month impact program with the goal of improving public awareness of the police department and training officers in basic public education techniques. The project involved a multimedia campaign, several surveys and training and additional manpower for the police department.

The project also addressed itself to working with specific crime problems in the Billings area. Burglary security checks were made for local businesses, a shoplifting education program was taught in the schools and a special department, Community Organization for Drug Abuse Control (CODAC), was formed to help alleviate the drug problem in Billings.

**Tribal**

**Justice**

**Programs**

Jurisdictional considerations affecting Federal Indian Reservations, tribal courts and Indian people require special handling in criminal justice system planning.

The Montana Board of Crime Control employs an Indian Criminal Justice Planner, Gil Baldwin, who works with the tribal court and councils in improving the Indian justice system and coordinating Indian projects with other projects funded by the Board of Crime Control.

### **Model Tribal Code**

E. Gardner Brownlee, Judge of the fourth judicial district, wrote and published a model tribal code through assistance of the Board of Crime Control.

The model code suggests changes and additions to tribal law which would assist the reservations in bringing their laws into proximity with the law of the land.

## **Fort Peck Community Relations**

Training in community relations problems has been offered to the tribal police of the Fort Peck Reservation through the extension service of Dawson College in Glendive. The courses offer tribal officers instruction in improving understanding between law enforcement and the community.

## **Tribal Court Improvement**

Trained legal personnel was provided to the Blackfeet Tribe in 1971 to assist the tribal court in remodeling the judicial procedure to assure justice consistent with the Civil Rights Act of 1966 to each Indian living on the Reservation.

## New Careers

In cooperation with the Department of Labor and the Montana Inter-Tribal Policy Board, the Board of Crime Control has funded a program to provide New Careers in law enforcement to educationally disadvantaged Indians while providing additional manpower to the tribal courts.

Through New Careers, 42 Indians from Montana's seven reservations are being trained for counseling and rehabilitative work with Indian juvenile offenders and for employment in other areas of the Indian criminal justice system.
